For our web design clients, we help you start at the beginning from helping you choose the right web hosting company to domain registration, from designing and creating to maintaining your site.

Jennifer, an honor graduate of Foothill College in Los Altos, California, has an AS (Associates of Science) in Internet Technologies, specializing in Web Design. She was also working on a certificate in Interactive & Multimedia Technologies, but because of relocating to Ridgecrest, was unable to continue.

We have done sites for photographers, actors, musicians, fun & more from all over including North Carolina, Alabama, British Columbia and more! The only sites we will not do are those dealing with adult content. So please do not even ask. There is no right price for us to break this policy!

Unlike other local web designers, we do not charge an hourly PLUS per page rate! We offer Low rates for High Quality professional work! The prices below are just estimates. Over 95% of our jobs have come in under budget. All prices and packages are discussed with the clients before hand to determine the best needs at the best rate!

For those even interested, we can teach you how to maintain your own site to save you even more! How many out there are willing to do that, when they could be taking money? Not many, and from what we've heard from many local people we've talked to, none around here!

If you would like to sit down with us for a free consult, please call us at (760) 371-7813 or 793-7976 or stop by our office at 1663 S. China Lake Blvd., Suite E, 10 am - 4 pm Monday thru Friday.

REVIEWS

“****Job Well Done Jennifer**** This logo experience proved to be a little unique in its own way. I do appreciate your patience and expertise in this matter! May I call on your services again and refer others to you?” - **CHERRY TRAVIS OF ACCESS BUSINESS NOTES & SERVICES**

“That collage is so fricken cool! I love it! Great job” - **SANDY EVANS OF WINDBLOWN PHOTOGRAPHY**

“ ... I now have to get my JORDAN online from your website. I've witnessed several major changes to the website over the past year, and even though not all of them I like, I'm sure this hasn't happened by magic. From what some of my friends tell me, they can usually view the website and get all of the news from the paper even before they receive their delivery. For who ever is responsible, I at least thank you and keep up the great work!” - **"CURIOUS FORMER IWV RESIDENT" POST ON WWW.RIDGECRESTCA.COM WEBSITE**
