

Dear Neighbor:

Please allow me to introduce myself. My name is Faye Thrailkill and I am your neighborhood Herbalife Distributor.

I became a Herbalife Distributor because of the wonderful physical results, including weight lost that I, my family and friends experienced. The best part is it is still working.

I began the program because I wanted to feel better, period. I was tired of the low energy level and fatigue I was experiencing. I had spoken with a friend of mine, Caroline, who had been on the program just a few months and I could see the results that she and her husband, Craig, had experienced. She went from a size 10/12 to a size 2/4 in just three months and he lost 42 pounds in 3 1/2 months. She explained to me that Herbalife was indeed an incredible weight loss program but moreover, the benefits of using Herbalife products were amazing in other health-related issues as well. Though weight wasn't my biggest issue, I was delighted when I lost 4 pounds in 1 week. My issues of fatigue and low energy level simply vanished. I am now experiencing renewed energy, mental clarity and a sense of well-being.

Herbalife has been in business for 25 years, and although their specialty is healthy, fast weight loss, they have high quality nutritional and personal care products, all of which are just amazing and guaranteed!! We have over 40 million documented cases of helping people and currently have products available in 60 countries. One of the most incredible products is an energy drink called "Liftoff" The benefits of Liftoff include enhanced mental performance, improved short-term memory, promotes fast, accurate thinking and reduces mental fatigue. Now who wouldn't benefit from all of these!

If there is one thing you could change about your health without disrupting your schedule, what would it be?
